Letter from the Operations Director

To Our Community of Support:

This year North Fork Animal Welfare League is proud to celebrate our 60th Anniversary servicing the East End of Long Island from Riverhead to Orient and beyond. Throughout our history, our mission hasn't changed.

We inspire compassion for all living things. The League provides shelter to animals in need on the North Fork. We assist people who fall on hard times to ensure their pets remain fed and get the care they need. Additionally, we provide the community with access to medical care for their beloved pets, most importantly with spay and neutering. In doing so, the North Fork Animal Welfare League has changed the face of animal care on the North Fork.

Through this success over the last sixty years, the North Fork Animal Welfare League is able to take in animals from less fortunate shelters, which would otherwise be forced to euthanize.

Previous to adoption, we ensure that every pet is medically sound, up to date on shots, microchipped, and matched with the right home.

This summer, we're celebrating our 60th by kicking off our 2023 fundraising appeal. We need your support to enable us to continue our life-saving mission.

Thank you for your support always,

Gabby Glantzman
Operations Director
